B 6/10  
The Executive Director,  
International Air Services Commission,  
G.P.O.Box 630,  
Canberra Act 2601,  
Australia.

Dear Sir/Madam,

I, a citizen of the Fiji Island writing in support of the Virgin Blue Groups "V Australia" submission to operate flights from Sydney to Fiji using 777-300ER.

I give my reasons as below;

-Currently there is only Air Pacific operating on the routes and with Qantas code sharing on the same aircrafts. There are a lot of delays because the aircrafts that Air Pacific uses are very old.

-There is no choice of service for customers as it is only Air Pacific that operates its aircrafts.

-There is hardly any competition on the route as Air Pacific and Qantas are the only two operators.

-Us the people of Fiji have to pay much more than what the tourist pay to travel overseas and competition would be something that we need.

I hope I have written enough to support my letter.

Regards,

Navin Raj
