IASC Act and Policy Statement Considerations

This application should be considered against the general criteria for assessing the benefit to the public in paragraph 4 of the Minister's Policy Statement.

These state that the use of entitlements by an Australian carrier under a bilateral arrangement is of benefit to the public, provided that it is reasonably capable of obtaining the necessary approvals and implementing the proposal.

We would be pleased to provide any further information the Commission may require in support of this application.

Yours sincerely,

pp.
